

WHAT WE ACHIEVED IN 2020:

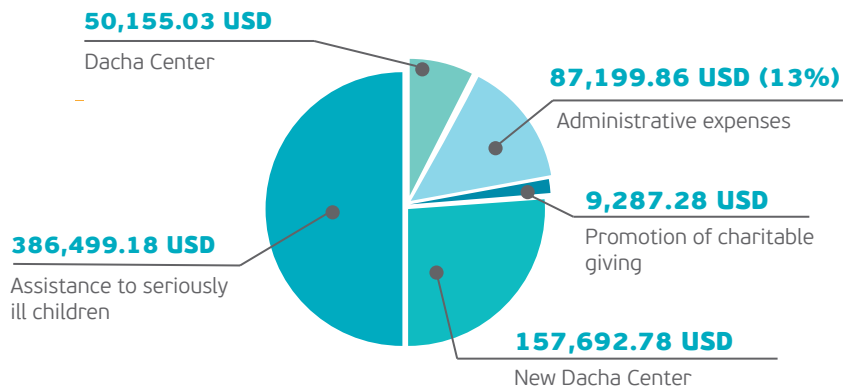

WE RAISED

648,125.09 USD

WE SPENT

648,125.09 USD

We used all your donations for charitable activities; our partner Fondazione Soleterre pays our administrative expenses.

DACHA CENTER IN 2020 IS A HOME FOR:

69 kids from **20 oblasts** of Ukraine whose normal childhood has been stolen by cancer. **110 moms and dads**, grandparents, siblings, and other relatives who has found a way to come to Kyiv from far away cities and towns to see each other, to hug each other, and to tell each other the most important words of love and support.

NEW DACHA CENTER CONSTRUCTION

New Dachka construction for **13 families** is underway. In 2020, we installed internal communications in the house (water, drainage, heating), installed ventilation and air conditioning systems, performed electrical works, built a boiler facility and a carport, carried out interior works (plaster walls, floor screed, plasterboard works), insulated the house and began facade works. Currently, the house is ready for repair works and furnishing of the rooms.

The project expenses amounted to **157,692.78 USD**.

INDIVIDUAL ASSISTANCE AND TREATMENT/DIAGNOSIS ABROAD

387 children received a chance to live and have improve a better life quality. Among them:

144 children received medicines, necessary medical supplies, examinations, endoprostheses and donor bones – for the total amount of **202,477.28 USD**.

2 children managed to go abroad for MIBG scan, which is not performed in Ukraine, before the start of the pandemic. The total amount of assistance is **519.29 USD**.

COVID-19 PROTECTION

113 children and their accompanying parents underwent free PCR tests, which is a prerequisite for hospitalization in pediatric departments.

We purchased protection equipment and disinfection for the total amount of **8,716.56 USD**.

The ozonation of the Neurosurgery Department was performed; disinfectant dispensers and bactericidal irradiators were installed at the National Cancer Institute for the total amount of **2,318.86 USD**.

PHYSICAL REHABILITATION

47 children were able to make their first step, to run and even to dance. It took them:

825 sessions – daily, long, properly planned exercise sets offline and online for everyone under the supervision of physiotherapists.

PSYCHOLOGICAL SUPPORT

Zaporuka's psychological service consists of 4 oncopychologists.

188 children received **719 sessions**

229 relatives received **757 sessions for adults**

37 sessions and **6 thematic group sessions** for **37 medical workers**

SANITARY CONDITIONS IMPROVEMENT

We renovated **4 patients' rooms, bathrooms** and internal corridors at the Hematological Department of the Western Ukrainian Specialized Children's Medical Centre.

The psychologist's room was renovated and equipped in Lviv.

The total amount is **6,328.89 USD**.

MEDICAL EQUIPMENT

For the National Cancer Institute we purchased: surgical instruments for bone canal treatment and orthopedic interventions, electric instruments, instruments for thoracoscopy, osteo saw for bone surgeries.

For the Western Ukrainian Specialized Children's Medical Centre we purchased: automated microbiological analyzer Phoenix M50, oxygen concentrators.

Besides, during the year, we purchased medicines and medical supplies that were not provided by the state.

The total amount is **151,378.46 USD**.

TRANSPLANTATION IN LVIV

The project of launching a bone marrow transplant department in the Western Ukrainian Specialized Children's Medical Center in Lviv has started.

The preparatory work was carried out: an architectural project and estimate as well a plan for training specialists and an internship at the Okhmatdyt. The beginning of renovations works and purchases are planned for 2021.

THANK YOU FOR HELPING US TO HELP!
